

Harlan Campbell

harlancampbell@gmail.com

Education

- Sept, 2015 - June, 2019 **University of British Columbia**, PhD - *Statistics*
Supervisor: Prof Paul Gustafson, [link](#)
Marshall Prize winner, [link](#)
Awarded for "excellence in the discipline of statistics as demonstrated by strength in the development and application of statistical methodology."
- Sept, 2009 - Dec, 2011 **Simon Fraser University**, Master of Science - *Statistics*
Supervisor: Prof Charmaine Dean, [link](#)
- Sept, 2004 - Dec, 2008 **McGill University**, Bachelor of Science - *Mathematics*
Minor concentration in Music

Professional experience

- July, 2019 - **Postdoctoral Research Fellow** – University of British Columbia
Developed innovative theoretical and applied statistical methods with local, national and international collaborators, and funding from:
- The ReCoDID project supported by the European Commission and the Canadian Institutes of Health Research, [link](#)
- The ZIKV IPD Consortium supported by the World Health Organization, [link](#)
- Aug, 2020 - **Research Consultant** – Precision HEOR
Provided expertise for evidence synthesis research to support the development of novel healthcare innovations, [link](#).
- July, 2012 - Dec, 2017 **Statistician** – EMMES Canada CRO
Provided statistical services as a partner to clinicians/scientists for studies including:
- mTBI Mechanisms of Action of HBO2 for Persistent Post-Concussive Symptoms (BIMA), [link](#)
Sponsor: U.S. Army Medical Research and Materiel Command
- The Age-Related Eye Disease Study 2 (AREDS2), [link](#)
Sponsor: National Eye Institute
- Evaluation of the Healthy Schools BC Program, [link](#)
Sponsor: BC Centre for Disease Control

Sept - Dec, 2011 **Data Science Intern** – Cardiome Pharma
Developed tools for longitudinal data visualization and analysis.

Teaching

July, 2021 **Guest Lecturer** – UBC Faculty of Pharmaceutical Sciences
Discussed challenges in COVID-19 systematic reviews for PHRM302

Jan - May, 2018 **Instructor** – UBC Dept of Statistics
Lectured and administered STAT306 for 145 students, [link](#)

Sept, 2015 - May, 2016 **Teaching Assistant** – UBC Dept of Statistics

Sept, 2009 - Dec, 2010 **Teaching Assistant** – SFU Dept of Statistics and Actuarial Science

Research

Statistics Publications

- 2022 Bayes factors and posterior estimation: Two sides of the very same coin,
H Campbell and P Gustafson, *The American Statistician*, [link](#)
- 2022 The Bayes factor, HDI-ROPE and frequentist equivalence tests can all be reverse engineered -almost exactly- from one another: Reply to Linde et al. (2021),
H Campbell and P Gustafson, in press at *Psychological Methods*, [link](#)
- 2022 Bayesian adjustment for preferential testing in estimating infection fatality rates: Theory and methods as motivated by the COVID-19 pandemic,
H Campbell, P de Valpine, L Maxwell, V de Jong, T Debray, T Jaenisch and P Gustafson, *The Annals of Applied Statistics*, [link](#)
- 2022 A few things to consider when deciding whether or not to conduct underpowered research (letter to the editor),
H Campbell, V de Jong, T Debray and P Gustafson, *Journal of Clinical Epidemiology*, [link](#)
- 2022 Adjusting for misclassification of a predictor in an individual participant data meta-analysis,
V de Jong, H Campbell, L Maxwell, T Jaenisch, P Gustafson and T Debray, *Research Synthesis Methods*, [link](#)
- 2022 Limitations introduced by a low participation rate of SARS-CoV-2 seroprevalence data,
O Pluss, H Campbell, L Pezzi, I Morales, Y Roell, T Quandelacy, M Lamb, M Chu, T Baernighausen and T Jaenisch, *The International Journal of Epidemiology*, [link](#)
- 2022 A comparison of alternative network meta-analysis methods in the presence of non-proportional hazards: A case study in first-line advanced or metastatic renal cell carcinoma,
S Cope, K Chan, H Campbell, J Chen, J Borrill, J May, W Malcolm, S Branchoux, K Kupas and JP Jansen, *Value in Health*, [link](#)

- 2022 Systematic review reveals lack of causal methodology applied to pooled longitudinal observational infectious disease studies,
H Hufstedler, S Rahman, A Danzer, H Goymann, V de Jong, H Campbell, P Gustafson, T Debray, T Jaenisch, L Maxwell, EC Matthay and T Bärnighausen, *Journal of Clinical Epidemiology*, [link](#)
- 2021 The consequences of checking for overdispersion and zero-inflation,
H Campbell, *Methods in Ecology and Evolution*, [link](#)
- 2021 Inferring the COVID-19 IFR with a simple Bayesian evidence synthesis of seroprevalence study data and imprecise mortality data,
H Campbell and P Gustafson, *Epidemiology and Infection*, [link](#)
- 2021 What to make of equivalence testing with a post-specified margin?,
H Campbell and P Gustafson, *Meta-Psychology*, [link](#)
- 2021 Measurement error in individual participant data meta-analysis – A Bayesian framework for continuous outcome data,
H Campbell, V de Jong, T Jaenisch, T Debray and P Gustafson, *Research Synthesis Methods*, [link](#)
- 2021 Current trends in the application of causal inference methods to pooled longitudinal observational infectious disease studies – A protocol for a methodological systematic review,
H Hufstedler, E Matthay, S Rahman, V de Jong, H Campbell, P Gustafson, T Debray, T Jaenisch, L Maxwell and T Bärnighausen, *PLoS ONE*, [link](#)
- 2021 Current trends in the application of causal inference methods to pooled longitudinal non-randomised data: A protocol for a methodological systematic review,
E Yeboah, NS Mauer, H Hufstedler, S Carr, E Matthay, L Maxwell, S Rahman, T Debray, V de Jong, H Campbell, P Gustafson, T Jaenisch and T Bärnighausen, *BMJ Open*, [link](#)
- 2020 Can we disregard the whole model? Omnibus non-inferiority testing for R^2 in multivariable linear regression and η^2 in ANOVA,
H Campbell and D Lakens, *The British Journal of Mathematical and Statistical Psychology*, [link](#)
- 2019 Is it even rainier in North Vancouver? A non-parametric rank-based test for semicontinuous longitudinal data,
H Campbell, *Journal of Applied Statistics*, [link](#)
- 2019 The world of research has gone berserk: Modeling the consequences of requiring “greater statistical stringency” for scientific publication,
H Campbell and P Gustafson, *The American Statistician*, [link](#)
- 2018 Conditional equivalence testing: An alternative remedy to publication bias,
H Campbell and P Gustafson, *PLoS ONE*, [link](#)
- 2018 The validity and efficiency of hypothesis testing in observational studies with time-varying exposures,
H Campbell and P Gustafson, *Observational Studies*, [link](#)

- 2017 Twin data that made a big difference, and that deserve to be better-known and used in teaching,
H Campbell and JA Hanley, *Journal of Statistical Education*, [link](#)
- 2014 The consequences of proportional-hazards based model selection,
H Campbell and CB Dean, *Statistics in Medicine*, [link](#)
- 2012 Model-based clustering of longitudinal data: Application to modeling disease course and gene expression trajectories,
A Ciampi, H Campbell, A Dyachenko, B Rich, J McCusker and MG Cole, *Communications in Statistics-Simulation and Computation*, [link](#)

Applied Publications

- 2020 The Zika Virus Individual Participant Data Consortium: a global initiative to estimate the effects of fetal exposure to Zika virus on adverse fetal, infant, and child health outcomes,
The Zika Virus Individual Participant Data Consortium, *Tropical Medicine and Infectious Disease*, [link](#)
- 2018 Comparison of hemoglobin A1c results based on at-home and in-lab dried blood spot sampling to routine venous blood sampling in-lab in adult patients with type 1 or type 2 diabetes,
T Elliott, K Dooley, M Zhang, H Campbell and D Thompson, *Canadian Journal of Diabetes*, [link](#)
- 2016 Sleep assessments for a mild traumatic brain injury trial in a military population,
J Walker, N James, H Campbell, S Wilson, S Churchill and L Weaver, *Undersea and Hyperbaric Medicine Journal*, [link](#)
- 2015 Comparison of reducing epicardial fat by exercise, diet or bariatric surgery weight loss strategies: A systematic review and meta-analysis,
S Rabkin and H Campbell, *Obesity Reviews*, [link](#)
- 2014 Impact on diabetes care of access to an online patient portal,
M Lau, H Campbell, T Tang, DJS Thompson and T Elliott, *Canadian Journal of Diabetes*, [link](#)
- 2013 Modelling factors that affect the presence of larval mosquitoes (diptera: culicidae) in stormwater drainage systems to improve the efficacy of control programmes,
MJ Jackson, J Gow, M Evelyn, T McMahon, H Campbell, J Sheppard, TJ Howay, D Fladmark and A Thielman, *The Canadian Entomologist*, [link](#)
- 2012 An evaluation of the effectiveness of a commercial mechanical trap to reduce abundance of adult nuisance mosquito populations,
MJ Jackson, JL Gow, MJ Evelyn, TJS McMahon, TJ Howay, H Campbell, J Blancard, and A Thielman, *Journal of the American Mosquito Control Association*, [link](#)

Preprints

Equivalence testing for linear regression, H Campbell, submitted to *Psychological Methods*, [link](#)

Defining a credible interval is not always possible with “point-null” priors: A lesser-known consequence of the Jeffreys-Lindley paradox, H Campbell and P Gustafson, submitted to *Bayesian Analysis*, [link](#)

Standardization allows for efficient unbiased estimation in observational studies and in indirect treatment comparisons: A comprehensive simulation study, H Campbell, JE Park, JP Jansen and S Cope, submitted to *Statistics in Medicine*, [link](#)

A fully Bayesian approach to estimating SARS-CoV-2 cumulative incidence and infection fatality rates from serosurveys, J Slater, A Bansal, H Campbell, P Gustafson, P Brown and J Rosenthal, submitted to *Biostatistics*, [link](#)

Invited Talks

Determining the lethality of COVID19

- School of Population and Global Health, McGill University, Feb 23, 2023
- The Therapeutics Initiative, University of British Columbia, Jan 27, 2021

Bayesian adjustment for preferential testing in estimating infection fatality rates

- Dept of Statistics, University of British Columbia, Sept 29 2020

If journals embraced conditional equivalence testing, would research be better?

- METRICS, Stanford University, Oct 18, 2019
- The Therapeutics Initiative, University of British Columbia, June 26, 2019
- Dept of Statistics and Actuarial Science, University of Waterloo, Jan 30, 2019
- Mathematics Dept, Reed College, Feb 26, 2019
- Dept of Mathematics and Statistics, University of Ottawa, Apr 17, 2019
- The Annual Meeting of the Statistical Society of Canada, Montreal, June 5, 2018.

Skills & Service

Peer Review:

Reviewer for the journals:

- | | |
|--------------------------------------|---|
| - The BMJ | - The American Statistician |
| - Methods in Ecology and Evolution | - The Journal of Applied Statistics |
| - Nature Human Behaviour | - BMC Medical Research Methodology (4) |
| - Royal Society Open Science (4) | - Canadian Journal of Diabetes |
| - Canadian Journal of Public Health | - Journal of Statistical Computation and Simulation |
| - PLoS ONE | - Obesity Reviews |
| - Statistical Methods & Applications | - PLOS Neglected Tropical Diseases |
| - Journal of Statistical Education | |
| - Computational Statistics | |

- The Lancet Regional Health - Southeast Asia - J. of Data Science, Statistics, and Visualisation

Communication and Technology:

- Fully bilingual in french and english.
- Programming proficiency in R (JAGS, stan, shiny), SAS, and Matlab.
- Cloud computing experience with Compute Canada clusters.
- Data management experience with electronic data capture software (AdvantageEDC).

Leadership:

- Review member for the 2022 Mitacs Accelerate research proposals.
- Evaluation committee for the 2021 Statistical Society of Canada's Biostatistics competition.
- Organizer of the 2017 and 2018 Constance van Eeden seminars.
