

Harlan Campbell

harlancampbell@gmail.com

Education

- Sept, 2015 - June, 2019 **University of British Columbia, PhD - *Statistics***
Supervisor: Prof Paul Gustafson, [link](#)
Marshall Prize winner, [link](#)
Awarded for "excellence in the discipline of statistics as demonstrated by strength in the development and application of statistical methodology."
- Sept, 2009 - Dec, 2011 **Simon Fraser University, Master of Science - *Statistics***
Supervisor: Prof Charmaine Dean, [link](#)
- Sept, 2004 - Dec, 2008 **McGill University, Bachelor of Science - *Mathematics***
Minor concentration in Music

Professional experience

- July, 2023 - **Principal Scientist/Senior Methodologist – Precision AQ**
Overseeing research agenda and the development and dissemination of innovative methods research to support comparative effectiveness and cost-effectiveness questions involving clinical trials, patient reported outcomes, and real-world studies.
- July, 2023 - **Adjunct Professor – University of British Columbia**
Pursuing research agenda and graduate student supervision in the Department of Statistics.
- July, 2019 - June, 2023 **Postdoctoral Research Fellow – University of British Columbia**
Developed innovative theoretical and applied statistical methods with local, national and international collaborators, and funding from:
 - The ReCoDID project supported by the European Commission and the Canadian Institutes of Health Research, [link](#)
 - The ZIKV IPD Consortium supported by the World Health Organization, [link](#)

Aug, 2020 - June, 2023

Research Consultant – Precision AQ

Provided expertise for evidence synthesis research to support the development of novel healthcare innovations, [link](#).

July, 2012 - Dec, 2017

Statistician – EMMES Canada CRO

Provided statistical services as a partner to clinicians/scientists.

Research

Peer-reviewed Publications

- 2026 Doubly robust augmented weighting estimators for the analysis of externally controlled single-arm trials and unanchored indirect treatment comparisons,
H Campbell, A Remiro-Azocar, *Research Synthesis Methods*[link](#)
- 2026 A fully Bayesian approach for the imputation and analysis of derived outcome variables with missingness,
H Campbell, T Morris, P Gustafson, *Statistics in Medicine* [link](#)
- 2025 Augmented two-stage estimation for treatment switching in oncology trials: Leveraging external data for improved precision,
H Campbell, N Latimer, JP Jansen, S Cope, *Statistical Methods in Medical Research*, [link](#)
- 2025 Adverse fetal and perinatal outcomes associated with Zika virus infection during pregnancy: an individual participant data meta-analysis,
EA Pérez, JA Ticona, ..., H Campbell, ..., S Schultz-Cherry *EClinicalMedicine*, [link](#)
- 2025 One-Step Parametric Network Meta-Analysis Models Using the Exact Likelihood That Allow for Time-Varying Treatment Effects,
H Campbell, D Maciel, K Chan, J Jansen, S Klijn, K Towle, B Malcolm, S Cope, *Research Synthesis Methods*, [link](#)
- 2024 Discussion on “LEAP: the latent exchangeability prior for borrowing information from historical data” by Ethan M. Alt, Xiuya Chang, Xun Jiang, Qing Liu, May Mo, H. Amy Xia, and ...,
H Campbell, P Gustafson, *Biometrics*, [link](#)
- 2024 Application of causal inference methods in individual-participant data meta-analyses in medicine: addressing data handling and reporting gaps with new proposed reporting guidelines,
H Hufstedler, N Mauer, ..., H Campbell, ..., T Bärnighausen, *BMC Medical Research Methodology*, [link](#)
- 2024 The Bayes factor, HDI-ROPE and frequentist equivalence tests can all be reverse engineered -almost exactly- from one another: Reply to Linde et al. (2021),
H Campbell and P Gustafson, *Psychological Methods*, [link](#)
- 2024 Defining a credible interval is not always possible with “point-null” priors: A lesser-known correlate of the Jeffreys-Lindley paradox,
H Campbell and P Gustafson, *Bayesian Analysis*, [link](#)

- 2024 Unanchored population-adjusted indirect comparison methods for time-to-event outcomes using inverse odds weighting, regression adjustment, and doubly robust methods with either individual patient or aggregate data,
JE Park, H Campbell, K Towle, Y Yuan, JP Jansen, D Phillippo, S Cope - *Value in Health*, [link](#)
- 2023 Equivalence testing for linear regression,
H Campbell, *Psychological Methods*, [link](#)
- 2022 A Bayesian approach to estimating COVID-19 incidence and infection fatality rates,
J Slater, A Bansal, H Campbell, P Gustafson, P Brown and J Rosenthal, *Biostatistics*, [link](#)
- 2022 Bayes factors and posterior estimation: Two sides of the very same coin,
H Campbell and P Gustafson, *The American Statistician*, [link](#)
- 2022 Bayesian adjustment for preferential testing in estimating infection fatality rates: Theory and methods as motivated by the COVID-19 pandemic,
H Campbell, P de Valpine, L Maxwell, V de Jong, T Debray, T Jaenisch and P Gustafson, *The Annals of Applied Statistics*, [link](#)
- 2022 A few things to consider when deciding whether or not to conduct underpowered research (letter to the editor),
H Campbell, V de Jong, T Debray and P Gustafson, *Journal of Clinical Epidemiology*, [link](#)
- 2022 Adjusting for misclassification of a predictor in an individual participant data meta-analysis,
V de Jong, H Campbell, L Maxwell, T Jaenisch, P Gustafson and T Debray, *Research Synthesis Methods*, [link](#)
- 2022 Limitations introduced by a low participation rate of SARS-CoV-2 seroprevalence data,
O Pluss, H Campbell, L Pezzi, I Morales, Y Roell, T Quandelacy, M Lamb, M Chu, T Baernighausen and T Jaenisch, *The International Journal of Epidemiology*, [link](#)
- 2022 A comparison of alternative network meta-analysis methods in the presence of non-proportional hazards: A case study in first-line advanced or metastatic renal cell carcinoma,
S Cope, K Chan, H Campbell, J Chen, J Borrill, J May, W Malcolm, S Branchoux, K Kupas and JP Jansen, *Value in Health*, [link](#)
- 2022 Systematic review reveals lack of causal methodology applied to pooled longitudinal observational infectious disease studies,
H Hufstedler, S Rahman, A Danzer, H Goymann, V de Jong, H Campbell, P Gustafson, T Debray, T Jaenisch, L Maxwell, EC Matthay and T Bärnighausen, *Journal of Clinical Epidemiology*, [link](#)
- 2021 The consequences of checking for overdispersion and zero-inflation,
H Campbell, *Methods in Ecology and Evolution*, [link](#)
- 2021 Inferring the COVID-19 IFR with a simple Bayesian evidence synthesis of seroprevalence study data and imprecise mortality data,
H Campbell and P Gustafson, *Epidemiology and Infection*, [link](#)
- 2021 What to make of equivalence testing with a post-specified margin?,
H Campbell and P Gustafson, *Meta-Psychology*, [link](#)

- 2021 Measurement error in individual participant data meta-analysis – A Bayesian framework for continuous outcome data,
H Campbell, V de Jong, T Jaenisch, T Debray and P Gustafson, *Research Synthesis Methods*, [link](#)
- 2021 Current trends in the application of causal inference methods to pooled longitudinal observational infectious disease studies – A protocol for a methodological systematic review,
H Hufstедler, E Matthay, S Rahman, V de Jong, H Campbell, P Gustafson, T Debray, T Jaenisch, L Maxwell and T Bärnighausen, *PLoS ONE*, [link](#)
- 2021 Current trends in the application of causal inference methods to pooled longitudinal non-randomised data: A protocol for a methodological systematic review,
E Yeboah, NS Mauer, H Hufstедler, S Carr, E Matthay, L Maxwell, S Rahman, T Debray, V de Jong, H Campbell, P Gustafson, T Jaenisch and T Bärnighausen, *BMJ Open*, [link](#)
- 2020 The Zika Virus Individual Participant Data Consortium: a global initiative to estimate the effects of fetal exposure to Zika virus on adverse fetal, infant, and child health outcomes,
The Zika Virus Individual Participant Data Consortium, *Tropical Medicine and Infectious Disease*, [link](#)
- 2020 Can we disregard the whole model? Omnibus non-inferiority testing for R^2 in multivariable linear regression and $\hat{\eta}^2$ in ANOVA,
H Campbell and D Lakens, *The British Journal of Mathematical and Statistical Psychology*, [link](#)
- 2019 Is it even rainier in North Vancouver? A non-parametric rank-based test for semicontinuous longitudinal data,
H Campbell, *Journal of Applied Statistics*, [link](#)
- 2019 The world of research has gone berserk: Modeling the consequences of requiring “greater statistical stringency” for scientific publication,
H Campbell and P Gustafson, *The American Statistician*, [link](#)
- 2018 Comparison of hemoglobin A1c results based on at-home and in-lab dried blood spot sampling to routine venous blood sampling in-lab in adult patients with type 1 or type 2 diabetes,
T Elliott, K Dooley, M Zhang, H Campbell and D Thompson, *Canadian Journal of Diabetes*, [link](#)
- 2018 Conditional equivalence testing: An alternative remedy to publication bias,
H Campbell and P Gustafson, *PLoS ONE*, [link](#)
- 2018 The validity and efficiency of hypothesis testing in observational studies with time-varying exposures,
H Campbell and P Gustafson, *Observational Studies*, [link](#)
- 2017 Twin data that made a big difference, and that deserve to be better-known and used in teaching,
H Campbell and JA Hanley, *Journal of Statistical Education*, [link](#)
- 2016 Sleep assessments for a mild traumatic brain injury trial in a military population,
J Walker, N James, H Campbell, S Wilson, S Churchill and L Weaver, *Undersea and Hyperbaric Medicine Journal*, [link](#)

- 2015 Comparison of reducing epicardial fat by exercise, diet or bariatric surgery weight loss strategies: A systematic review and meta-analysis,
S Rabkin and H Campbell, *Obesity Reviews*, [link](#)
- 2014 Impact on diabetes care of access to an online patient portal,
M Lau, H Campbell, T Tang, DJS Thompson and T Elliott, *Canadian Journal of Diabetes*, [link](#)
- 2014 The consequences of proportional-hazards based model selection,
H Campbell and CB Dean, *Statistics in Medicine*, [link](#)
- 2013 Modelling factors that affect the presence of larval mosquitoes (diptera: culicidae) in stormwater drainage systems to improve the efficacy of control programmes,
M Jackson, J Gow, M Evelyn, T McMahon, H Campbell, J Sheppard, TJ Howay, D Fladmark and A Thielman, *The Canadian Entomologist*, [link](#)
- 2012 An evaluation of the effectiveness of a commercial mechanical trap to reduce abundance of adult nuisance mosquito populations,
MJ Jackson, JL Gow, MJ Evelyn, TJS McMahon, TJ Howay, H Campbell, J Blancard, and A Thielman, *Journal of the American Mosquito Control Association*, [link](#)
- 2012 Model-based clustering of longitudinal data: Application to modeling disease course and gene expression trajectories,
A Ciampi, H Campbell, A Dyachenko, B Rich, J McCusker and MG Cole, *Communications in Statistics-Simulation and Computation*, [link](#)

Preprints

- Don't Disregard the Data for Lack of a Likelihood: Bayesian Synthetic Likelihood for Enhanced Multilevel Network Meta-Regression,
H Campbell, CC Margossian, JP Jansen, P Gustafson, [link](#)
- Hidden in Plain Sight: How Non-Collapsibility Biases Treatment Effects in (Network) Meta-Analysis,
H Campbell, JP Jansen, [link](#)
- Integrating representative and non-representative survey data for efficient inference,
N Dyrkton, P Gustafson, H Campbell, [link](#)

Conference Abstracts

- 2025 Integrating Real-world Evidence to Augment Crossover Adjustment in KarMMa-3: A Case Study in Relapsed/Refractory Multiple Myeloma,
Paula Rodríguez-Otero, Harlan Campbell, ..., *Clinical Lymphoma Myeloma and Leukemia*
- 2025 An Evaluation of Overall Survival Between B-cell Maturation Antigen Chimeric Antigen Receptor T cell Therapies and Bispecific Antibodies for the Treatment of Relapsed/refractory Multiple Myeloma,
Noopur Raje, Harlan Campbell, ..., *Clinical Lymphoma Myeloma and Leukemia*

- 2024 PT5 Structural Uncertainty in Evidence Synthesis: A Case Study Applying Model Averaging in Bayesian Multi-Level Network Meta-Regression,
S Goring, D Maciel, W Bouwmeester, S Cope, J Jansen, H Campbell, *Value in Health*
- 2024 P-033 External Control Analysis for KarMMa-3: Idecabtagene Vicleucel (ide-cel) vs Real-World Standard of Care (RW SoC; Connect MM) for Triple-Class Exposed (TCE) Relapsed/Refractory Multiple Myeloma (RRMM),
S Jagannath, H Campbell, ..., D Dhanda, *Clinical Lymphoma Myeloma and Leukemia*
- 2024 SA64 One-Step Parametric Network Meta-Analysis Models Using the Exact Likelihood That Allow for Time-Varying Treatment Effects,
H Campbell, D Maciel, K Chan, J Jansen, S Klijn, K Towle, B Malcolm, S Cope, *Value in Health*
- 2024 CO82 Bayesian Pan-Tumor Multilevel Meta-Regression: An Unanchored Indirect Treatment Comparison (ITC) of Adagrasib Versus Sotorasib in Previously Treated KRASG12C-mutated Advanced/Metastatic Solid Tumors,
D Maciel, ..., H Campbell, ..., S Cope, *Value in Health*

Book Chapters

- 2026 "Dealing with measurement error" in Comparative Effectiveness and Personalized Medicine Research Using Real-World Data, Valentijn de Jong, Timo Brakenhoff, Harlan Campbell, Thomas PA Debray, Paul Gustafson

Invited Talks

"Defining a Credible Interval Is Not Always Possible with "Point-Null" Priors: A Lesser-Known Correlate of the Jeffreys-Lindley Paradox."

- Bayesian Analysis Webinar organized by the International Society for Bayesian Analysis, Oct 2, 2024

Determining the lethality of COVID-19

- ISI World Statistics Congress, Ottawa, ON, Jul 19, 2023
- School of Population and Global Health, McGill University, Feb 23, 2023
- The Therapeutics Initiative, University of British Columbia, Jan 27, 2021

Apples and oranges in the context of anchored indirect treatment comparisons – Is there more to it than effect modifiers?

- Spotlight session at ISPOR 2023, Boston, MA, May 10, 2023

Bayes Factors and Posterior Estimation: Two Sides of the Very Same Coin

- Aki Vehtari research group, Aalto University, Aug 25, 2022

Bayesian adjustment for preferential testing in estimating infection fatality rates

- Dept of Statistics, University of British Columbia, Sept 29 2020

If journals embraced conditional equivalence testing, would research be better?

- METRICS, Stanford University, Oct 18, 2019

- The Therapeutics Initiative, University of British Columbia, June 26, 2019
- Dept of Statistics and Actuarial Science, University of Waterloo, Jan 30, 2019
- Mathematics Dept, Reed College, Feb 26, 2019
- Dept of Mathematics and Statistics, University of Ottawa, Apr 17, 2019
- The Annual Meeting of the Statistical Society of Canada, Montreal, June 5, 2018.

Skills & Service

Communication and Technology:

- Fully bilingual in french and english.
- Programming proficiency in R (JAGS, stan, shiny), SAS, and Matlab.
- Cloud computing experience with Compute Canada clusters.
- Data management experience with electronic data capture software (AdvantageEDC).

Leadership:

- Member of the Technical Advisory Group (TAG) for the WHO Global Clinical Platform (2023 - ongoing)
- Reviewer for the 46-th Conference of the International Society for Clinical Biostatistics (ISCB) (2025).
- Advisor on COVID-19 modelling strategies for the Joint Biosecurity Centre (UK Health Security Agency).
- Review member for the 2022 Mitacs Accelerate research proposals.
- Evaluation committee for the 2021 Statistical Society of Canada's Biostatistics competition.
- Organizer of the 2017 and 2018 Constance van Eeden seminars.

Peer Review:

Reviewer for the journals including:

- | | |
|---|--|
| - The BMJ | - The American Statistician |
| - Statistics in Medicine (2) | - The Journal of Applied Statistics |
| - Methods in Ecology and Evolution | - BMC Medical Research Methodology (6) |
| - Nature Communications | - Canadian Journal of Diabetes |
| - Nature Human Behaviour | - Research Synthesis Methods |
| - Royal Society Open Science (5) | - J. of Statistical Computation and Simulation |
| - Canadian Journal of Public Health (2) | - Obesity Reviews |
| - PLoS ONE | - PLOS Neglected Tropical Diseases |
| - Statistical Methods & Applications | |
